Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants explained how the present invention is different regarding claim 1 in that the substrate is removably mounted by the body. Examiner did not agree that the claims as they are currently worded are able to overcome Bova et al. Applicants and Examiner discussed the possibility of amending claim 1, focusing on the other sets of claims/embodiments including claim 47 with a fiber optic tracking device, and claim 12 with three reflecting/emitting ultrasonic spheres. Examiner provided an opinion for each suggested path so that Applicants may better select the next step.
